JETALPUR

Date : August 20, 2015

A REPORT ON DIGITAL INDIA WEEK CELEBRATION

Requirement of digital India

Digital India concept is introduced to the country by our honorable prime minister, Mr Narendra Modi. As our government do not have particular e-governance system in which public grievances are important. There are many loop holes in our system as it do not have any transparency and loyalty towards it's' governance. To create transparency and reduce the degree of corruption in government operated sectors, our Prime Minister introduced to nation "the Digital India Concept", in which we can file complaints and register any issues on e-forum basis. By this concept, government wants to create corruption free governance. Human Resource Department of government took a great initiative by giving the vision to make India Digital in UGC and AICTE affiliated colleges and universities.

Details of program:

Serial No:	Time	Activity	Faculty
1	2:15 – 3:30	Seminar on Digital India	Mr. Harshad Patel
2	3:30 – 4:00	Group Discussion	Mr. Nimesh Saxena
3	4:00-4:30	Presentation and videos	Mr. Pragnesh Patel

The Digital India concept was explained to the students and faculties in our college on August 20, 2015. In that topic our some of the fellow faculties gave the suggestions about how to make system transparent. Among all those suggestions one of the suggestion was SmsToNeta and explained by Asst Professor Harshad Patel. SmsTo Neta was implemented by one group called right to recall group to make public grievances online and make those grievances (issues of the country) online. There are numbers of issues which are explained in details on www.smstoneta.com. If any person read the issue and wants to give opinion, he/she can vote Yes or No on those issues so that issues

can be converted into Law Drafts or Parliamentary bills in the Parliament or Legislative Assembly. For more information about this movement, person can visit www.smstoneta.com.

After this seminar fruitful and healthy group discussion was carried out by two groups of students of 3rd semester electrical class.

At the end of program Mr. Pragnesh Patel shown presentation and videos regarding digital India.

Here are some snapshots of program:
