Project title: Franchisee Station Web Portal.

Abstract:"Franchisee Station Web Portal "is developed in order to provide a platform between customer who is planning to take franchisee of any product and the franchisor who gives the franchisee of product to the customer. The customer just needs to access this application through internet media and request for the franchisee of the product. On request the franchisor then shows the available franchisees according to the requirement and need of the customer.

SOFTWARE USED: VISUAL STUDIO 2013 DATABASE:MY SQL

LANGUAGE:ASP.NET WITH C#
