

# NARNARAYAN SHASTRI INSTITUTE OF TECHNOLOGY

(Department of Computer Science & Engineering)

Name : Bhavika A. Dave(Enrollment no:090340131057)

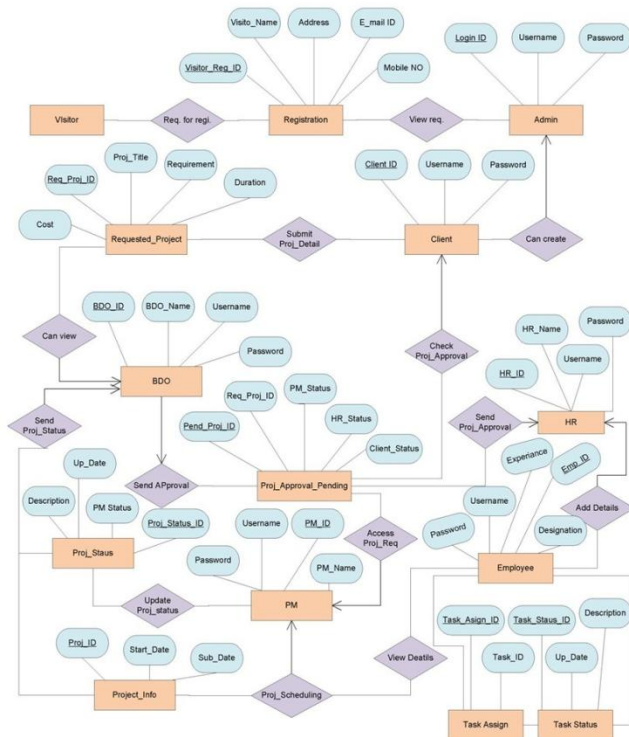

**Internal Guide:-Ms. Ankita Shah**  
**Project Title:-Project Tracking System**

**Abstract:-** The Project entitled “Project Tracking System” deals with the various levels of project development and will account for time used in analysis, design, programming, testing and verification etc.

It is well known fact that software companies undertake huge amount of projects more than one at a time. Hence there is a profound need for the organizations to manage all the projects efficiently and ensure that projects cycle goes on smoothly and they are completed on time.

This application makes it easier for the organization to monitor the projects. It maintains records and tracks various parameters that influence software project development process and helps the management to take decisions at various stages of the project development. All the information relevant to the projects like size, time, effort and departments involved, etc is maintained by this application.

## Hardware Requirements:

- Processors : 2.4 GHz or higher, dual core minimum
- RAM : 1GB or Higher
- Monitor : 17” Color Monitor
- Hard disk : 500GB or above with mirroring capability

## Software Requirements:

- Front end : Visual Studio 2010 , ASP.net
- Back end : SQL Server 2008
- Web Server : Internet Information Server(IIS)
- Operating System : Windows XP & Higher

## Software tools:

- Operating System : Windows 7 & higher
- Framework : Framework 4
- Front End : Microsoft Visual Studio 2010
- Back End : SQL server 2008
