**Internal guide:** Mr. snehal patel

9898125525.

**Working principle :** the main objective of wire drawing machine is to draw wire with help of multi hole die. Which have reduce diameter of wire from 0.753mm to 0.423mm and multiple wires at same time .

Also it will increase Production rate.

**Application :** it is used to in small factories and Workshope

- It is used in jewlery shop .
- It can used in recycling of wires

**cost :** net cost of machine is 15,000 rs.
